Compreendendo o multiplicador do Aviator💪

O multiplicador no jogo Aviator representa o lucro potencial que um jogador

pode obter dependendo da altura máxima alcançada pelo avião.

O jogo baseia-se em um algoritmo Provably Fair,

que garante a equidade e a transparência em cada rodada, assim como a geração aleatória de coeficientes.

💪

💪

O objetivo é verificar esses resultados de forma independente.

Recomenda-se centrar-se em multiplicadores baixos antes de atingirem 1,5X, uma vez que essas opções são mais seguras e permitem um maior número de sucessos, embora as possíveis vitórias sejam menores.
