The odds are designed to encourage betting &#127823; on both sides of an event, ensuring that the bookie will make a profit regardless of the outcome. They do &#127823; this by adjusting the payout odds to favor the less likely outcome, thus ensuring a profit even if the majority &#127823; of bets are placed on the more likely outcome.&lt;/p>&lt;p>Bookies also collect a commission, known as the &quot;vig&quot; or &quot;t;juice,&quot; on &#127823; losing bets. This commission is typically around 10 % of the total amount wagered. By collecting this fee on all losing &#127823; bets, bookies are able to generate revenue even if they pay out a significant amount of money to winning bettors.&lt;/p>&lt;p>Finally, &#127823; bookies may limit the amount of money paid out to winning bettors. This is done to manage risk and ensure &#127823; that the bookie remains profitable. By limiting the payout to winning bettors, bookies are able to protect themselves from large &#127823; losses in the event of a significant upset or unexpected outcome.&lt;/p>&lt;p>In summary, bookies make money through a combination of setting &#127823; odds, collecting commissions, and limiting payouts to winning bettors. These strategies allow them to generate revenue and remain profitable over &#127823; the long term.&lt;/p>&lt;p>&lt;/p>&lt;/div>
