shooter, and the average level of violence in multiplayer and campai
gn slightly greater than most first person shooters. While there is
no explicit gore in multiplayer (just blood), the level of violence in the camp

🏧The downside to the game is that it is realist
ic, therefore you see blood, violence and other negative stimulants that can be
harmful for a child. In order to win the game, you need to win the
war. Since the video game is about war, you have to kill as many people as possi
