Gaming studios work on the gaming engine

and add specific features into separate prototypes.

Later, video game programmers select the stable prototypes and add sections of the game iteratively.

Software prototyping follows a linear software development life cycle, unlike most other aspects of video game development.

How do Gaming Studios Hire Game Development Teams? - Turing

Develop your kicking as well as throwing skills. ...

Stay focused on the game all the time even if the ball is away from your 18 yard box.

Always keep your eye on the ball.
