<p></p><p>Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck ✖ , predicting corn
ers in a football game, but we at AFootballReport find in corners very profitabl
e markets especially in live events ✖ , when odds go very high as the game evolv
es. So how do we predict corners? Of course as any other football ✖ , prediction
and corners are related to a number of pre-match and team factors. First of all
we should see the ✖ , type of game we're looking for or the type of game we
want to predict. Is it a game with ✖ , a strong favorite or just two equally str
engthen teams that play. If it's a game with a strong favorite probably ✖ ,
we should pay attention to the corners race predictions as strong favorites alwa
ys keep the ball in possession more than ✖ , the other teams and create more cha
nces as they push forward almost during the whole game. Keep in mind in ✖ , live
events that if the score is in favor of the favorite team then this team would
not be so ✖ , motivated to create chances and would probably win less corners th
an in a draw event or from behind.</p>
<p>Second thing we ✖ , should use when making our corners tips is to see t
he teams lineups and tactic for the upcoming game. Target ✖ , teams with more o
ffensive tactics and teams that use wingers heavily in their attacks. For exampl
e, some good wingers for ✖ , the home team could easily produce more than 10-20
crosses in the penalty area which very often defenders clear in ✖ , corners.<
</p>
<p>Corners in the late stage of the game are more likely to happen than in
the early minutes. Usually teams ✖ , are very careful in the opening minutes of
a football game and they try to enter the game more passively ✖ , than aggressi
vely. As the game continues depending on whether a team is losing or winning the
game is leading to ✖ , pushing forward and sending more players to attack or de
fend. This leads to significantly increasing the number of corners in ✖ , the la
st minutes and that is what we want when predicting corners.</p>
<p>Spot derby games. Derby games are always poor in ✖ , goals, but very ri
ch in corners and bookings and cards especially. No one wants to lose a derby, s
o teams ✖ , losing it push very hard to regain advantage, which always leads to
corners produced Explore the unique corners stats on our ✖ , page. Always streak
