

# roleta da sorte google

To find the range of a function, here are the five basic steps:

1. Label the function as  $y = f(x)$ .

2. Express  $x$  as a function of  $y$ .

3. Find all values of  $y$  where  $f(y)$

4. Eliminate the values of  $y$  that will make the function undefined.

5. Write the range.
