Multiplayer not working error is the corrupted cache data. In this case, you can try clearing the cache files on your phone. For more information, see the article on the topic.

Some of the reasons for this error are:

- Outdated game version
- Corrupted cache data
- Insufficient storage space
- Network issues

To resolve the issue, you can try the following steps:

- Update the game to the latest version.
- Clear the cache data.
- Free up storage space on your phone.
- Restart your phone.
- Check your internet connection.

If the error persists, you may need to uninstall and reinstall the game.

Use the triangular obstacles as cover, and angle the camera as high up as possible so you can see where the fruit is coming from. Bunny hopping is another strategy to help you avoid the other players at the start.
